EMERGENCY WATER & SEWER PAGER NUMBER

It is critical to call the Emergency Water & Sewer pager number if your sewer alarm sounds or you experience any other water or sewer emergency. This service is included in your monthly utility bill and is available 24/7. It's important to note that this is a pager system and NOT a cell phone. If you do not leave your name, number and address, Public Works will not have adequate information to be able to respond to your call.

THE IMPORTANCE OF CLEANING UP PET WASTE

By Public Works Director Alonso Limones

Dealing with pet waste is one of those topics that every pet owner must deal with, but no one likes to talk about. The fact is that most of our community and neighborhood pet problems result from the inappropriate handling of pet waste. It is each pet owner's responsibility to clean up after their pets

Pet waste is the greatest source of potential health risk for your pet and your family and pollution of waterways and environment. For example, organisms like E. coli, Giardia, Salmonella, and much more can cause illnesses that can be experienced if humans are exposed to these bacteria and organisms that can lead to serious illness or even death. It also makes us have different types of waterways that we can no longer use due to the pollution. We should all strive for clean and unpolluted water for ourselves and our families.

Please take the time out of your day to make sure you are helping our community and our environment by cleaning after your pet.
